

– KARTHISH MANTHIRAM –
THEODORE T. MILLER CAREER DEVELOPMENT CHAIR
ASSISTANT PROFESSOR, DEPARTMENT OF CHEMICAL ENGINEERING
MASSACHUSETTS INSTITUTE OF TECHNOLOGY

CONTACT

Address: Massachusetts Institute of Technology
77 Massachusetts Avenue, 66-550
Cambridge, MA 02139

Phone: 617-715-5740

E-mail: karthish@mit.edu

Twitter: @KManthiram

PROFESSIONAL APPOINTMENTS

2017 – present **Assistant Professor**
Massachusetts Institute of Technology
Department of Chemical Engineering
(2020 – *present*) Theodore T. Miller Career Development Chair
(2017 – 2019) Warren K. Lewis Career Development Professorship

2015 – 2016 **Postdoctoral Research Associate**
California Institute of Technology
Division of Chemistry and Chemical Engineering
Advisor: Robert. H. Grubbs

EDUCATION

2010 – 2015 **Ph.D. in Chemical Engineering**
University of California, Berkeley

Advisor: A. Paul Alivisatos, Department of Chemistry
Dissertation: Nanoscale metals and semiconductors for the storage of solar energy in
chemical bonds

2006 – 2010 **B.S. in Chemical Engineering with Honors and Distinction**
Minor in Materials Science and Engineering
Stanford University

Advisors: Yi Cui, Materials Science and Engineering
Jim Swartz, Chemical Engineering
Honors Thesis: Progress Towards Developing a Red-Shifted Mutant of the Gaussia
Luciferase

HONORS AND AWARDS

2020	DOE Early Career Award
2020	NSF CAREER Award
2020	American Institute of Chemical Engineers 35 Under 35 Award
2020	MIT Teaching with Digital Technology Award
2020	C. Michael Mohr Outstanding Undergraduate Teaching Award
2020	ACS Catalysis Early Career Advisory Board
2019	American Chemical Society Petroleum Research Fund Doctoral New Investigator Award
2019	3M Nontenured Faculty Award
2019	MIT Chemical Engineering Outstanding Graduate Teaching Award
2019	Young Innovator Award in NanoEnergy
2018	C. Michael Mohr Outstanding Undergraduate Teaching Award
2017	Forbes 30 Under 30 in Science
2016	Outstanding Postdoctoral Researcher Poster at Gordon Research Conference on Catalysis
2015	Materials Research Society Outstanding Student Presentation Award
2015	Electrochemical Society Dan Cubicciotti Award
2014	Poster Prize at Gordon Research Conference on Noble Metal Nanoparticles
2013	Selected to Attend Lindau Nobel Laureates Meeting, Lindau, Germany
2012	Dow Excellence in Teaching Award, University of California, Berkeley
2012	Chemical Engineering Departmental Teaching Award, University of California, Berkeley
2012	3rd Place Poster Prize, NaNaX 5 Meeting, Malaga, Spain
2010 – 2013	Department of Energy Office of Science Graduate Fellowship
2010 – 2011	Tau Beta Pi Fellowship
2010	National Science Foundation Graduate Fellowship (Declined)
2010	Mason and Marsden Prize in Chemical Engineering, Stanford University
2010	Faculty Award for Outstanding Honors Research, Chemical Engineering, Stanford University
2010	Frederick E. Terman Award for Scholastic Achievement in Engineering, Stanford University
2010	Award for Academic Achievement in Chemical Engineering, Stanford University
2009	Barry M. Goldwater Scholarship
2009	Channing Robertson Award in Chemical Engineering, Stanford University
2009	Merck Engineering and Technology Fellowship (Declined)
2009	Science and Technology at the Nanoscale Research Award, Materials Science and Engineering, Stanford University
2008	Vice Provost for Undergraduate Education Research Award, Chemical Engineering, Stanford University
2007	President's Award for Academic Excellence in the Freshman Year, Stanford University
2006	Valedictorian, Liberal Arts and Science Academy, Austin, Texas
2006	National Merit Scholarship

CONFERENCE ORGANIZATION, CHAIRING, AND MODERATION

Moderator, Expert Workshop on Climate Change, Agriculture, Water, and Food Security, Jameel Water and Food Systems Lab, May 9, 2018, Dedham, MA.

Co-chair, Symposium on “Electrosynthesis of Fuels,” Electrochemical Society Annual Meeting, May 13, 2018, Seattle, WA.

Organizer and Co-Chair, “Electrocatalysis,” Catalysis and Reaction Engineering Division, AIChE Annual Meeting, October 29, 2018, Pittsburgh, PA.

Organizer and Co-Chair, “Application of Nanoscale Phenomena and Materials to Practical Electrochemical Energy Storage and Conversion,” Materials Research Society Fall Meeting, November 25, 2018, Boston, MA.

Organizer and Host, New England Catalysis Society Meeting, Massachusetts Institute of Technology, December 7, 2018, Cambridge, MA.

Organizer and Co-Chair, “Electrocatalysis for Energy Conversion and Storage,” American Chemical Society Fall Meeting, August 25, 2019, San Diego, CA.

Organizer and Co-Chair, “Electrochemistry for Applications in Sustainability,” Engineering Sciences and Fundamentals Program, AIChE Annual Meeting, November 11, 2019, Orlando, FL.

Organizer and Co-Chair, “Electrocatalysis and Photoelectrocatalysis V,” Catalysis and Reaction Engineering Division, AIChE Annual Meeting, November 15, 2019, Orlando, FL.

SELECTED WORKSHOPS

Speaker at National Academies Workshop, “Electrification and Decarbonization of Chemical Synthesis,” Workshop on Advances, Challenges, and Long-Term Opportunities of Electrochemistry: Addressing Societal Needs, Chemical Sciences Roundtable, November 19, 2019, Washington, D.C.

Writer for Department of Energy Basic Research Needs Document, “Transformative Manufacturing,” March 9, 2020, Rockville, MD.

SELECTED OUTREACH

Lecture on “Mastering the Job Talk,” Rising Stars Program for Early Career Women Pursuing Academic Careers, Department of Chemical Engineering, Massachusetts Institute of Technology, October 4, 2018, Cambridge, MA.

Panelist for ACCESS Program for Underrepresented Minority Students, Department of Chemical Engineering, Massachusetts Institute of Technology, October 12, 2018, Cambridge, MA.

Speaker at MIT Tech Reunions, “Electrifying Chemical Synthesis,” Massachusetts Institute of Technology, June 8, 2019, Cambridge, MA.

Panelist for “Life as Junior Faculty,” Rising Stars Program for Early Career Women Pursuing Academic Careers, Department of Chemical Engineering, Massachusetts Institute of Technology, October 11, 2019, Cambridge, MA.

Speaker at Freshman Pre-Orientation Programs, “Electrifying Chemical Synthesis,” Massachusetts Institute of Technology, August, 21, 2019, Cambridge, MA.

Speaker at TEDxMIT, “Electrification and decarbonization of chemical manufacturing,” Massachusetts Institute of Technology, December 6, 2019, Cambridge, MA.

Speaker at New Engineering Education Transformation, “Electrification and Decarbonization of Chemical Synthesis,” Renewable Energy Machines Thread, April 28, 2020, Cambridge, MA.

EDITORIAL BOARDS

TEACHING

2017 - 2020

Instructor for Transport Phenomena*Massachusetts Institute of Technology*

Rating: 6.7/7

Awards: C. Michael Mohr Outstanding Undergraduate Teaching Award

Student Feedback:

- “Karthish cares so much. He is really great and I think he's going to do great things for future 10.302 classes. He is the single most caring and attentive teacher that I have ever seen in the Chemical Engineering department.”
- “Karthish is the best professor I've had at MIT - he is clearly very dedicated to helping the students learn and is willing to make time to meet outside of class both for 10.302 and anything else we need.”
- “Hands down one of the best professors I've had at MIT. Explained the content with contagious enthusiasm. Consistently related the class content to real-life applications, which made me even more sure that I made the right decision choosing Chemical Engineering.”

2017 - 2020

Instructor for Electrochemical Energy Systems*Massachusetts Institute of Technology*

Rating: 6.7/7

Awards: MIT ChemE Outstanding Graduate Teaching Award

Student Feedback:

- “Without a doubt the best professor I've had at MIT. Pacing of lectures was excellent, and he responded to student's questions thoroughly and thoughtfully. Excellent work at creating a positive learning environment for the students.”
- “Teaching was absolutely fantastic. Loved the way how Karthish gave physical interpretations to equations to help us give more intuitive feel for the subject. Overall, enjoyed the teaching very much.
- “Karthish was a very good professor! His Socratic method of teaching really enabled me to learn the material deeply. He was also very personable with the students, which made for a comfortable class atmosphere.”

2013

Head Graduate Student Instructor*UC Berkeley*

Course: Chemical Engineering Laboratory, CBE 154

2012

Graduate Student Instructor*UC Berkeley*

Course: Chemical Engineering Laboratory, CBE 154

Awards: Dow Excellence in Teaching Award
Chemical Engineering Departmental Teaching Award
